

Motorola Battery Date Codes

FOUR (4) DIGIT BATTERY DATE CODE FORMAT

(2011 & LATER):

Battery Code Position: 1 2 3 4

Battery Date Code Format: Y Y W W

Year of Battery Manufacture

The first two digits represent the year.

11 = 2011 12 = 2012 13 = 2013 14 = 2014

15 = 2015 16 = 2016 17 = 2017 18 = 2018

Week of Battery Manufacture

In a 4-digit battery date code the 3rd and 4th digit represent the week.

Example: A date code of 1611 would equal 2016, the 11th week.

AVERAGE LIFE EXPECTANCY IS 2 YEARS ON MOST BATTERIES.

THREE (3) DIGIT BATTERY DATE CODE FORMAT

(Pre-2011 and some current products):

Battery Code Position: 1 2 3

Battery Date Code Format: Y W W

Year of Battery Manufacture

The first digit represents the year.

6 = 2016 (or could also be 2006)

Week of Battery Manufacture

In a 3-digit battery date code the 2nd and 3rd digit represent the week.

Example: A date code of 609 would equal 2016, the 9th week
(or if very old could be 2006)
